

I am a Scientist

Growing together, hand in hand

- I ask questions about how the world works.
- I have the knowledge to produce my own investigations.
- I work collaboratively during scientific investigations.
- I understand the importance of fair testing.
- I understand how to use field work to develop investigations.
- I predict, produce and examine scientific results.
- I compare results and make changes for future experiments.
- I collect data and present it in different ways.
- I notice changes in plants, animals, materials and living things.
- I am able to name scientists who have made a difference to the world
- I can work scientifically and produce accurate results.
